Report of the
SCHOOL BOARD

Report of School Board.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens of Landaff:

I herewith present to you my fifth annual report of the condition of your schools.

ATTENDANCE.

A study of the statistical part of this report will show that the attendance in most of the schools has been very satisfactory and that the high standard of the past few years has been maintained. The low per cent. of attendance and the large number of tardinesses at South Landaff were caused by some transients who have left the district.

The majority of the children of permanent residents seem anxious to secure an education and are very regular and punctual in their attendance at school. Poor attendance usually emanates from transient population and from homes in which parental care and influence are lacking.

The record of attendance for the Landaff schools as shown in the reports of the Superintendent of Public Instruction for several years has been as follows: For the year ending July 15, 1907, 83 per cent., 1908, 87 per cent., 1909, 87 per cent., 1910, 86 per cent, 1911, 93 per cent, 1912, 92 per cent, 1913, 93 per cent, 1914, 92 per cent. The record for the last four years has been very good for a town in which the schools are all of the rural type. Every pupil and citizen should take an interest in this record and try to improve it both for the benefit that comes

to the pupils through regular and punctual attendance and because of the additional aid that will come from the state. Every day's attendance means a higher average attendance, upon which one of the sources of state aid is based.

SCHOOL BUILDINGS.

The Blue schoolhouse was thoroughly repaired and new desks were added during the spring vacation. This now is one of the best rooms in town. Many other repairs, including shingling at the Center, have been made during the year.

The Center and Ireland schoolhouses need to be thoroughly repaired and equipped with new furniture. This work should be done at the Center this year as this is the larger school and the building here is in a worse condition than the one in Ireland. The building at Ireland however should have at least one coat of paint during this year.

At Foster Hill plastering is needed, and the room should be newly papered. At Scotland plastering needs patching and the room should be painted and papered. The toilets here need repairing also. At South Landaff the roof needs to be patched, if not reshingled, and the toilets should be repaired.

In the report of Supt. Morrison on his inspection of the Landaff schools February 4, 1914, he says, "I particularly urge that the district should provide annually for a certain sum of money, which need not necessarily be large, for repairs to schoolhouses and that this policy should be continued until all the schoolhouses are in first class condition."

TEXT BOOKS AND SUPPLIES.

During the past year \$74.39 has been expended for text books and \$23.66 for scholars' supplies. The average cost per pupil for the state is approximately \$1.70 while the average cost for Landaff has been but a little more than one dollar per pupil.

New reading material has been added during the past few years so that each class now should read at least half a dozen books in class during a year instead of reading and rereading one book until learned verbatim as was formerly the custom. We learn to read by reading and a parent should see that his child is provided with good reading material in the home as well as at school.

New histories, physiologies and geographies have been provided to take the place of the antiquated, dilapidated books used a few years ago.

Several maps were purchased during the past year with a part of the Literary Fund, as provided by law.

THE SCHOOLS.

At no time in the last five years have the schools been in so good a condition as at the present time. The teachers are efficient and conscientious and, without exception, are working for the best interests of their pupils and of the town. There is a better spirit on the part of the pupils than formerly and indifference for an education has almost entirely disappeared. Most of the boys and girls do not seem satisfied to drop out of school as soon as they become sixteen but are anxious to go to high school.

In Mr. Morrison's report he summarizes his views of schools as follows: "In general I rate two of these Landaff schools as excellent, a credit to any town. Two of them I rate fair, but wholesome and useful. Two of them are to be rated poor." The last two have been so improved during the past year that they are as good as any and without any doubt would be rated excellent by the State Superintendent now. The other four schools are fully as good as they were a year ago.

The best way to find out about the schools is to visit them and to learn first hand just what is being done rather than

depend upon gossip and information from some person who possibly has some petty grievance and who knows absolutely nothing about existing conditions.

FINANCES.

The teachers' salaries for the present term have not been paid and will amount to \$560.00 for the ten weeks. This will leave a balance at the end of the winter term considerably smaller than was the balance a year ago. It must be remembered however that the schools have been run thirty-four weeks this year instead of thirty weeks.

The salary of the superintendent for thirteen months has been paid to the treasurer of the supervisory district.

\$187.00 has been paid for high school tuition during the past year. There are seven pupils in high schools now and several more planning to enter high school next fall so that \$300.00 will need to be assessed for this purpose.

One hundred dollars seems to be the amount needed for books and supplies each year. As \$9.00 of the flag money remains unspent it will not be necessary to assess any for this purpose this year. The amount required by law, \$802.50, is the same as last year. This makes a total of \$1,202.50, besides the officers' salaries, that will have to be assessed.

The State aid received in December was as follows:

For average attendance, ...	\$ 90.00
For qualified teachers, ...	60.00
For tuition rebate, ...	16.00
For superintendent's salary, ...	212.50
Literary Fund, ...	79.20

\$ 457.70

The amount for qualified teachers this year will be \$68.00. The amount for tuition rebate will be larger as the number of pupils has been larger. The amount for average attendance should be larger as the school year has been increased.

The amount for the support of the schools above that required by law should be as large at least if the schools are to be maintained thirty-four weeks. The amount necessary for repairs will depend upon what repairs are to be made during the year.

CONCLUSION.

The coöperation of the Grange and of those people who have the best interests of the schools at heart has been very gratifying. It is hoped that the Grange will continue its policy of holding an annual fair. The ribbon prizes and the framed picture and the money prizes of Mr. Stevens have been much appreciated.

The cordial support of the school board has been appreciated by the teachers and the superintendent.

Respectfully submitted,

JOHN S. GILMAN.

February 20, 1915.

SUMMARY.

(For the year ending July 15, 1914.)

Total number of pupils registered, including those in high school, 120.

Average daily attendance, 79.9.

Average daily absence, 7.1.

Average daily membership, 87.

Per cent. of attendance, 92.

Number of tardinesses, 179.

Number of visits by superintendent, 106.

Number of visits by citizens, 143.

Average salary of teachers per month, \$35.00.

Average per cent. of attendance for Spring term, 95.1.

Average per cent. of attendance for Fall term, 95.2.

Number of pupils enrolled during the Fall and Winter terms: Blue, 40; Foster Hill, 7; South Landaff, 13; Center, 22; Ireland, 13; Scotland, 22; a total of 117.

Eight pupils have been enrolled in high schools during these two terms.

Not absent or tardy for the year ending July 15, 1914:
Howard Bronson, Robert Dexter, John Chandler.
